### Draw Barry!

Use Minky's step by step instructions below to draw Barry.  
Use a pencil and have an eraser handy in case you make a mistake!

1. Draw an upside down triangle with round corners.

2. Add some mouse ears on top and indicate the eyes. Add another triangle below the eyes.

3. Draw a long triangle for the body and add his legs below it. Add some banana shapes for his arms.

4. Add a large S shape for his tail.

5. Erase the overlapping lines as shown. Use a pen and start inking his lines but use a broken line instead of a straight one to give him a furry edge.

6. Go over your pencil lines. Add his nose, mouth and T-shirt as shown. You can change his expression if you like!

7. The last step is to add stripes to his tail. Then colour the triangle of his snout, as well as his arms and legs. And you're all done!
